

PakGent®

SAFER LAB, LIGHTER, EASIER TO HANDLE.

Pipette Tip (To Fit LTS Pipette)

85% Less Force And Higher Accuracy

- With Filter/Low Retention available
- Reduce tip ejection force
- Improve performance
- Reduce your risk of injury
- Reduce pain and fatigue
- Reduce tip ejection force
- Increase productivity

Light Touch Pipette Tips

85% Less Force And Higher Accuracy

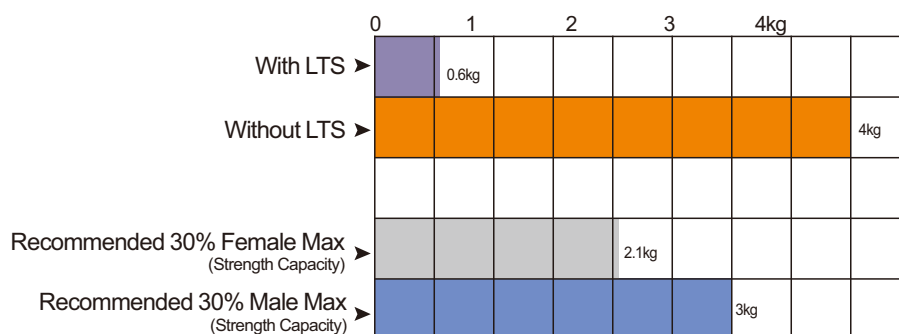

Without LTS
High operating force

With LTS
Low operating force

LTS pipette tips users can achieve reliable and consistent fitting effect without excessive force. LTS pipette tips has well-designed small sealing area and front stop point design. The front stop design allows you to know the exact position of the fitting.

Tip Ejection Forces

Please identify the LTS Pipette before purchasing

Multi-channel pipetting can be performed smoothly with the LTS tips system, ensuring absolutely consistent sample extraction across all channels. The front stop point design means that all channels are sealed perfectly at once, eliminating the need to shake or tighten the tips by hand. Significant time and money savings can be achieved during multi-channel pipetting, which ensures safe and reliable pipetting across all channels, consistent pipetting, and consistent, reproducible results.
