Welcome to the world of HAGS

HAGS has been designing, manufacturing, installing and servicing commercial recreational equipment for over 75 years. The business supplies Play, Sport and Fitness, Park and Urban, and Marine equipment around the world.

The picture above captures a scene from a Smaland, Sweden, a playground in the 1950s. Even back then, the tire swings Bimp & Bump, were already popular. Fast forward to today, and they are still a dynamic duo in many playgrounds. It's a testament to their enduring appeal and sustainable design.

In our digital world, there's a growing need to create enjoyable alternatives to prolonged screen time. This means creating inviting outdoor spaces such as parks, playgrounds, outdoor gyms, and arenas. These environments serve as hubs where individuals can gather not only to play and exercise but also to foster social connections.

hags.com

We are part of the: **PLAYPOWER FAMILY.**

Families that play together stay together. At PlayPower, we're a family of brands dedicated to enabling people of all ages to experience the power of play. Together we're a world leader in producing premier recreation equipment - from playgrounds, to outdoor furniture, to sport and fitness spaces. Our products enable and encourage everyone to be together and live more playful lives.

Our Vision

To be the leader in creating legendary play and recreation experiences around the world.

Our Mission

Our mission is to design and manufacture fun and safe play and recreation equipment for all ages and abilities. We will be recognised as the leader for inspiring and creating innovative products and providing superior customer service. We will leverage our brands globally to the benefit of those who use our products and to our customers, employees, and shareholders.

Our Values

Honesty and integrity, respect and caring for others, openness and collaboration, individual and team accountability, passion and purpose.

Sustainability in Action!

At HAGS, our commitment to sustainability is inherently tied to the wellbeing of children, who not only play a central role in our daily work but also represent our shared future.

We are driven by the aspiration to contribute to a world where our children, grandchildren, and generations beyond can thrive in a wholesome environment for both living and playing.

Our legacy at HAGS is steeped in a rich history, revealing that sustainability has been a guiding principle long before it became widely embraced. We dare to say that a genuine concern for both the environment and people has been an integral part of our journey.

As a responsible company, we acknowledge the importance to ensure the sustainability of our operations across economic, social, and ecological principles. Striving to forge active and sustainable outdoor spaces, our aim is to manufacture and deliver products with utmost care, fostering a gentle and thoughtful approach for both individuals and the environment throughout the entire production chain.

HAGS are committed to making our contributions – one step at a time.

SUSTAINABLE

HAGS Focus Areas

With a fundamental respect for our planet and all life on it, we focus our sustainability efforts on the areas where we, as a company, can have the most impact..

- **Develop products using materials that contribute to a circular economy.**
- **Design our products to be repairable and expandable year after year.**
- **Minimize waste in production and packaging.**
- **Maintain a sound business model throughout the entire supply chain.**
- **Create a healthy working environment for our staff, both physically and socially.**
- **Contribute to society by encouraging more people, both children and adults, to be active outdoors.**
- **Actively advocate for children's right to play and education.**

Safety also means sustainability. All our product development is based on international research and European safety standards. The German Technischer Überwachungs-Verein (TÜV) has the world's most comprehensive testing and approval procedure. That's why we can proudly say that all play and sports equipment from HAGS has been approved by TÜV.

play for all.

HAGS playgrounds are meant to bring joy to as many people as possible and inspire children of all ages, regardless of abilities, to interact with each other.

The feeling of **being part** of play and not feeling left out is among the most important things there is.

Social Interaction

Play holds immense significance in fostering children's social interaction. Through play, essential social skills such as communication, collaboration, and conflict resolution can be developed.

Encouraging children to explore new activities nurtures the development of courage and self-esteem, particularly crucial for those facing learning difficulties or disabilities.

Full Spin

When children spin, different parts of the brain are stimulated. New neural pathways are created and developed, leading to improvements in learning ability, spatial awareness, and rhythm. At the same time, motor skills, balance, and muscle strength are developed.

Not everyone can do everything, but there should be **something for everyone.**

Play Value

This describes how the environment, product, or play equipment provides children with play experiences. High play value indicates that children can play in many different ways and explore their own ideas and games.

We categorize play values into four categories: physical, social, creative, cognitive.

At hags.com, you will find suggestions for suitable play equipment for some of the most common learning difficulties or disabilities...

- **ADHD**
- **Intellectual disability**
- **Visual impairment**
- **Autism**
- **Hearing impairment**
- **Gastrointestinal issues**

We are happy to help demonstrate the possibilities for creating spaces with **play for all.**

A playful world for toddlers

In the small, delightful, and easily placed UniMini systems, everything is adapted for our little ones. Here, they can crawl, slide, climb, and cling at full speed. Or engage in more tranquil favorite games where the playhouse can suddenly transform into a store or a pirate ship.

Start by browsing through our extensive range of fun standard combinations; the chances are high that you'll find your complete solution right there. Otherwise, we can create a unique playground by combining the products according to your specific preferences.

Anchoring

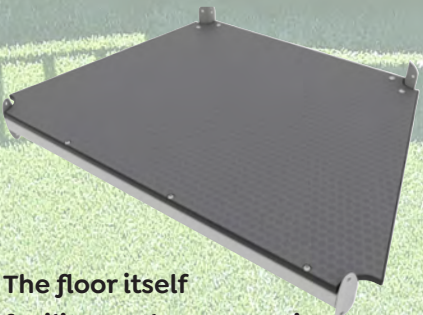

SUNKEN FOUNDATION	ABOVE GROUND
 Diagram S shows a vertical post anchored into a foundation. The post is labeled 'S'. The foundation is shown as a cross-section with the post passing through it. A dimension 'x' is indicated for the depth of the foundation.	 Diagram OM shows a vertical post anchored into a foundation. The post is labeled 'OM'. The foundation is shown as a cross-section with the post passing through it.

We are not only **builders** of physical bridges but also metaphorical ones.

With our innovative UniMix, a clever “bridge”, we seamlessly connect UniMini and UniPlay structures together. This feature presents children with fresh challenges as they enhance their motor skills. As they successfully climb higher on the larger section, they experience a boost in confidence and a sense of accomplishment. UniMix also offers greater flexibility and a wider range of play opportunities, even in limited spaces

UniMix

The floor itself facilitates the connection of multiple structures, unveiling a pathway to exciting new adventures.

UniPlay

My second home.

UniPlay is like its own little world. A world of play, joy, and imagination where children are in charge. It's no wonder it has been a favorite for over 30 years.

The UniPlay product range is exceptionally adaptable, featuring components crafted from timber, steel, HPL, and the option for customisation.

Choose from a large number of standard models or let yourself be inspired to create your own unique special stand together with HAGS designers. The possibilities are endless with this play system!

PLAY SYSTEMS **UniPlay**

ANYTHING IS POSSIBLE!

A themed playground is more than just a recreational space; it's a statement that fosters a unique identity within a community. The inclusion of themed play areas by HAGS allows communities to showcase their creativity and personality, contributing to a stronger sense of ownership and pride among residents.

A themed adventure with HAGS is a breeze, thanks to our versatile modular systems: UniMini and UniPlay. Creating a themed playground is a delightful journey with options like pirate and fairytale themes. These themes come to life with captivating panels resembling castles or ships and featuring a cast of characters, including knights, princesses, and dragons. Complemented by swings and slides tailored to each theme, UniMini and UniPlay amplify the play value, ensuring an immersive experience for children

Build in length. Build in width. Build in height.

UniPlay is based on 1x1 meter modules, providing great flexibility and a lot of variation. How high is your imagination?

Thanks to our patented **post foot**, no concrete is needed for anchoring. By lifting the wood above the ground, this clever solution protects against moisture and increases the lifespan of the entire play structure. We can also offer three additional alternatives depending on the surface.

By placing play functions at ground level, you can create **play on multiple levels** and utilize the space. At the same time, you make play more accessible for those who may not have the ability to climb.

Different environments require different materials, colors, and shapes. Choose what fits your surroundings and then complement with some of our many fun and creative accessories.

Utilize the landscape. Thanks to the flexibility of UniPlay, we can easily adapt to the surface and incorporate play into the existing design. For us, natural terrain is not an obstacle – just an exciting opportunity.

You're never too old to play!

"Our vision for the new playground was to create a unique space where people of different ages can play together. We asked HAGS to help us realize this vision. We have had an incredibly good collaboration, where HAGS listened to our wishes and visions.

The end result truly exceeds our expectations. It's heartwarming to see the finished result. The playground is absolutely fantastic!"

UniPlay STANDARD

All our play structures are creative, exciting, and designed to provide fun and varied play.

"Standard" just means that we have packaged them to make them affordable and easy to order.

Our standard units can also be customized or expanded as needed. Swap out, add, or change colors.

Contact us for more information.

A young boy with short brown hair and a green wristband is climbing a red obstacle course bar. He is wearing a black t-shirt and looking up with a determined expression. The background is a clear blue sky with some green foliage visible in the distance.

OBSTACLE COURSES

New world record!

Take on the challenge with our obstacle course combinations or create your own track using our range of challenging and exciting obstacles.

A fun way to exercise outdoors in a natural environment while improving upper and lower body strength, dexterity, balance and coordination.

With the two levels of difficulty featured in all our obstacles, adults and children can take part, practice, improve their skills and ultimately compete with a friend.

AGITO

Play with form & light.

Movement pulsates at the heart of HAGS Agito. Developed to support natural human movement patterns, HAGS Agito provides maximum returns from every movement performed, with legs, pelvis, and arms moving in a similar way to dancing! In fact, Agito literally means “to set in motion” in Latin.

HAGS Agito is irresistible to children, inviting them to visit and encouraging them to move from one point to another.

For illumination, choose Agito Aura range. They extend playtime by lighting up at dusk and create a lovely atmosphere during the darker hours of the day.

NRG

Energy balance.

Just as the name suggests, NRG is a real 'energy' hub. A place where play both generates and consumes energy. Here are products for various forms of balance training, both on ropes and on more stable surfaces.

You can customize your own NRG combination or choose from one of our many standard solutions.

NORNA

Play is natural.

With harmoniously organic shapes and earthy color tones, the Norma range is inspired by nature itself. The materials have a discreet but robust character that blends into parks and green areas.

The Norma series is made of Robinia, a wood species with unique properties in terms of strength and durability.

**PLAYCUBES
& CO**

Playful shapes.

In the realm of PlayCubes, there are no right or wrong approaches. Children can play in any manner they choose— whether it involves scaling to the highest peak or surprising others from the bottom. PlayCubes encourage imagination and facilitate exciting new movements.

It's a space to play together, explore together, and be together, offering countless possibilities. Here, children engage their entire bodies, and we believe that's truly remarkable!

CLIMB & BALANCE

MIX & MATCH

A photograph of two young girls sitting on a swing set at a playground. The girl on the left has long dark hair and is wearing a black t-shirt, holding the metal chain of the swing. The girl on the right has long blonde hair with a small flower headband and is wearing a white tank top. They are both smiling at the camera. The background shows a wooden play structure and a blurred figure of another person.

Swing into Fun.

Swinging often marks itself into our earliest memories of play, evolving into a cherished pastime that endures into our teenage years. Picture yourself leisurely chatting and relaxing on a swing in the park - it's a timeless scene!

The swing, a symbol of versatility, offers an array of experiences. Whether swinging solo at your own pace, sharing the joy with a friend, or engaging in spirited competitions, the swing adapts to various preferences. And if you take the plunge onto our thrilling zip line, the experience transforms into a blend of swinging and hanging, adding an extra layer of excitement to the mix.

Take flight.

Our compact seesaw designs bring a gentler ride with familiar characters, perfect for small, energetic bodies. Despite their size, these designs create a playful sway, adding an extra layer of fun.

The larger seesaws demand a push from both leg and core muscles, requiring coordination and teamwork for an adventurous ride through the air.

Bouncing on trampolines is not just fun but also a fantastic workout. It engages all major muscle groups with a mix of explosive and soft movements. The added bonus is that motor skills, balance, rhythm, and spatial perception all come into play while enjoying these delightful activities.

SLIDE
& SPIN

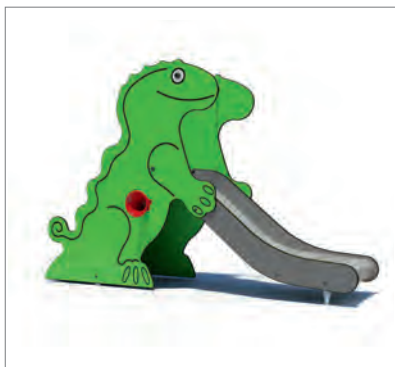

1+
YRS

Whirl and glide.

The carousel stands out as an obvious favorite on the playground, a timeless classic that never loses its charm. We enhance this classic with newly developed spinning equipment, introducing thrilling challenges. Did you know that practicing spinning not only adds fun but also accelerates the development of our sense of balance?

Equally indispensable is the slide. However, one size or style rarely satisfies everyone. Some crave the excitement of a high twisting tube, while others prefer a calm descent down a short wide track. That's why we offer a range of lengths, heights, colors, widths, and variations, ensuring there's a perfect slide for every rider.

CLIMB
& BALANCE

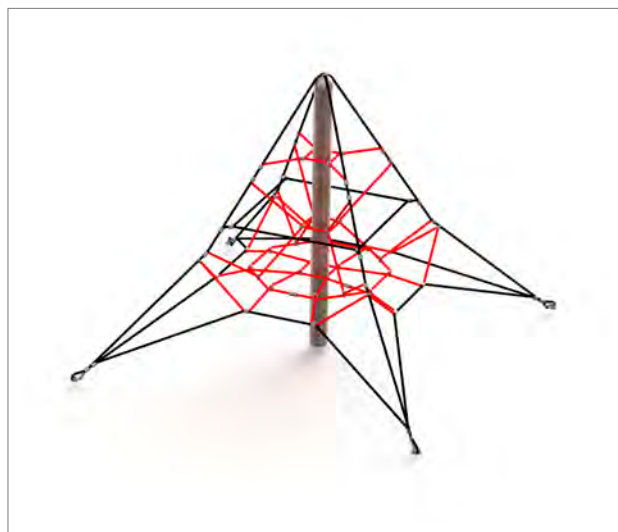

Like a spider in the web.

We understand that kids enjoy the thrill of height, making reaching the top their ultimate goal. In the process, they not only have fun but also develop strength, balance, and motor skills. In a nutshell, climbing is a smart activity.

For the little ones, simple obstacle courses and balance equipment mark the beginning of an active and healthy lifestyle.

OUTDOOR GYM

ARENA & BALL SPORTS

OUTDOOR GYM

14+^{YRS}

Exercising outdoors.

Outdoor gyms are more relevant than ever. Fresh air is always a bonus, and in tough economic times, free accessibility becomes extra valuable.

Create a workout area along fitness trails, in the park, on the school grounds, at the sports club, or even in the workplace. By making exercise easily accessible, we can get more people moving.

HAGS outdoor gym

5 ...strong, safe, fast and compelling reasons!

social

HAGS outdoor gyms are designed for individuals to challenge themselves, regardless of their ability or body type. The range includes wheelchair-friendly equipment and specialized gear for seniors.

Both community and physical activity lead to joy and improved health, thus contributing to a better quality of life. An outdoor gym becomes a natural and boundary-defying meeting place for people of all generations.

inclusive

Unlike flashy indoor gyms, an outdoor gym consumes no energy and has no other negative environmental effects. Furthermore, the products are primarily made of steel, which is durable over time and entirely recyclable.

sustainable

safe

HAGS is one of the few manufacturers in Europe licensed by OEM (Original Equipment Manufacturers). We exclusively use in-house manufactured components, and the products are assembled and tested to ensure they meet all requirements according to EN 16630 certification.

low

maintenance

Maintaining HAGS outdoor gyms is easy. There are clear instructions, and you don't need to be a technical genius to ensure that the gym products work as they should and look inviting and well-maintained. We provide original spare parts, and repairs can be handled promptly.

How do you choose the right gym equipment?

The most important decision when investing in an outdoor gym is to combine a mix of equipment that provides optimal opportunities for various types of exercise. To make the process easier, we have categorized the products into the following 5 categories...

- **Cardio**
- **Strength**
- **Balance**
- **Flexibility**
- **Multi-Gym**

Why choose HAGS?

HAGS has extensive experience in designing, manufacturing, and installing outdoor products for public spaces. Our play equipment and outdoor furniture have been at the core of our range for 75 years.

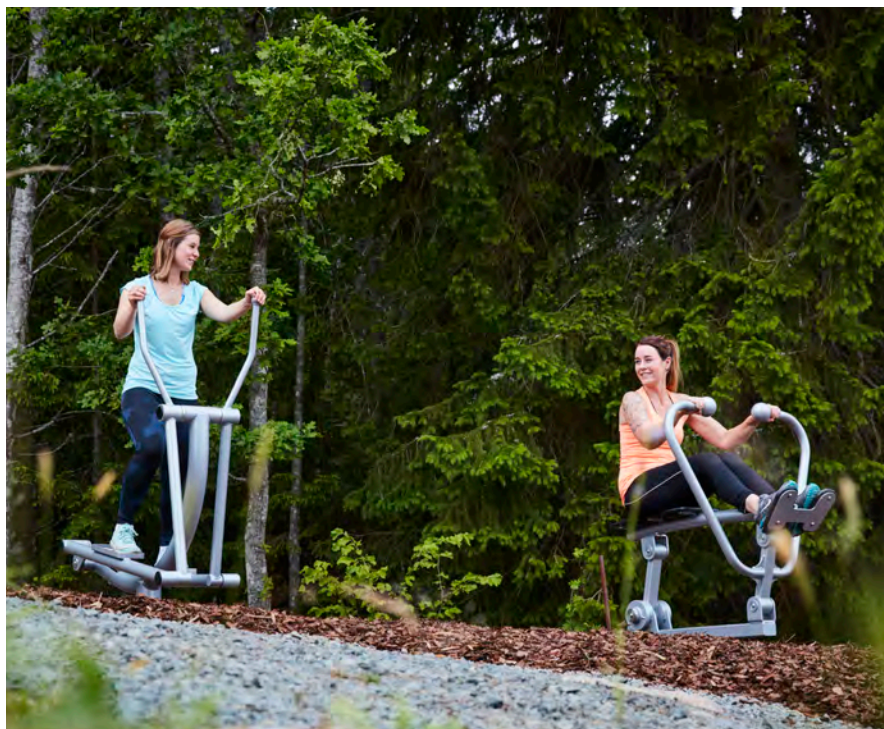

The knowledge we have gathered, especially in terms of safety and durability, has been of great benefit in the development of gym products. They have also proven to withstand both frequent use and challenging environments worldwide.

INSPIRATION

Where to start? How much space is needed? How can you include equipment that caters to everyone, even with limited space? Many questions arise when planning a gym.

To make the process easier, we've had our experts combine three excellent outdoor gyms. They are all carefully designed to offer full-body workouts but cater to different levels of needs, space, and budget. We hope these will inspire and simplify the process of creating your own perfect outdoor gym.

Do you already have a clear vision of how you want to design your gym? Do you want to create something unique? HAGS designers are available to help you visualize your thoughts and ideas. Get in touch, and together we'll build the outdoor gym of your dreams!

SMALL | 6

Carefully selected products that work well if you have limited space or a budget. Despite its compact size, the combination offers exercises for multiple muscle groups. Contact your sales representative for a quote.

CARDIOVASCULAR EXERCISE

Most people are well aware that cardiovascular exercise keeps the body in physical shape and builds energy and endurance. Equally important is its effect on mental wellbeing. It is well documented that pulse training increases both energy levels and the ability to relax and rest.

**ARENA &
BALL SPORTS**

Space for dreams.

The dream of the big arenas often begins with the small ones. HAGS Arena is perfect for schoolyards, parks, or residential areas. It suits various activities and can be customized to fit your budget and space. Here, you can engage in spontaneous sports without the need for booking, membership, or other requirements. A wonderful meeting place for both young and old players.

We also have a range that enhances the surroundings of the arenas. Seating with stylish design for both warming up and cooling down, most of them providing protection from both sun and inclement weather.

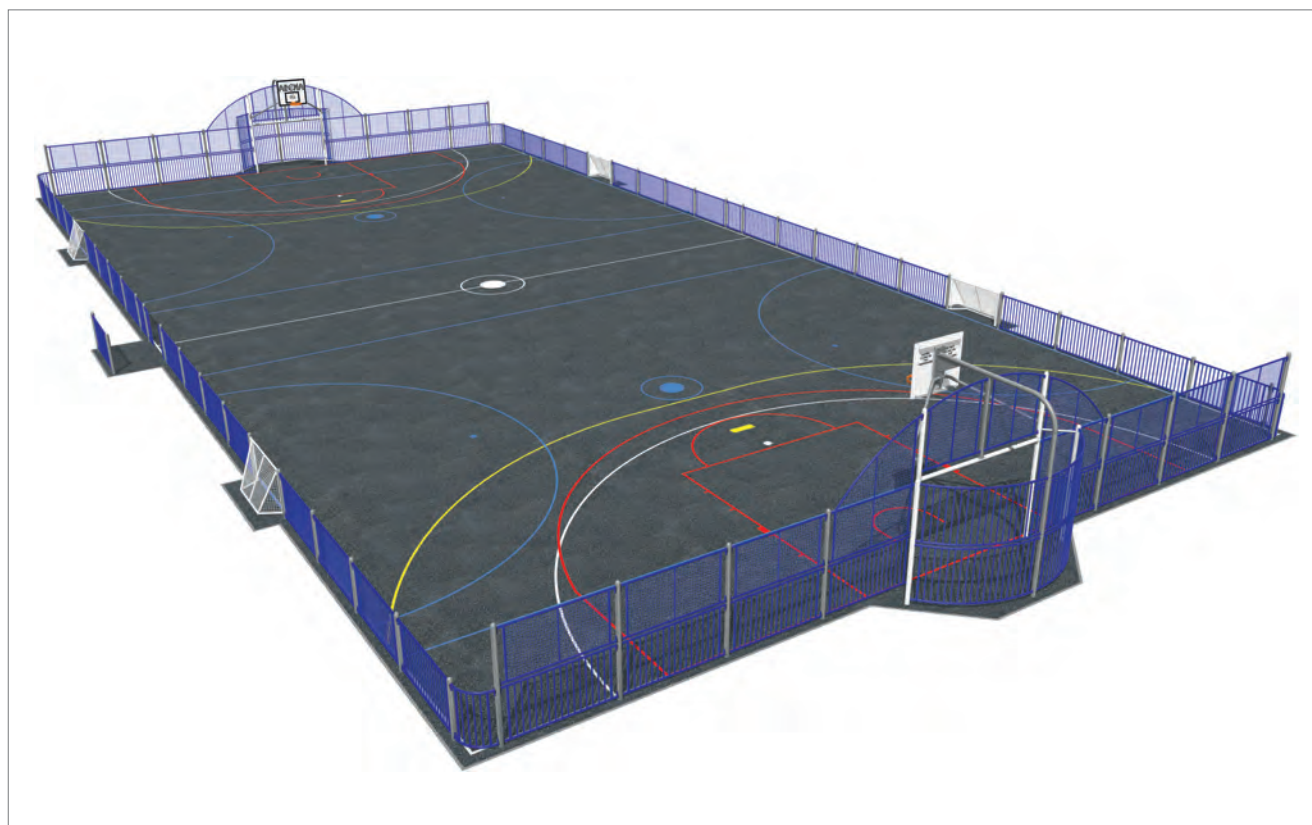

SPORT&FITNESS ARENA

ON HOME TURF

A mini arena in communities provides excellent conditions for impromptu sports. One that is always available, without the need for booking or other restrictions.

At HAGS, we have a large number of arenas, with various sports in focus and different designs and color schemes. In this catalog, you can see a selection, and you can also check how you can design your own arena on pages 170-171. Much more is available at hags.com

DESIGN YOUR HOME TURF

HAGS Multisport Arenas have proven to become truly central points in everyday life. Gathering places in the neighborhood where everyone can train regardless of their level, intensity, and ball preference. The arenas are adaptable to the given conditions. They are manufactured from durable and robust quality materials, vandal-proof, and certified according to SS-EN 15312.

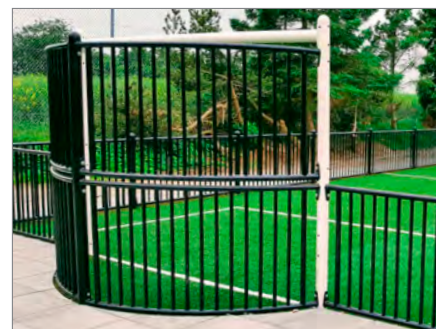

1. DECIDE THE SIZE OF THE FIELD

We can design your arena to suit your location, your sports, and your budget. With 1 or 2-meter-wide panels and 3-meter-wide goal sections, your arena can be as large or as small as you want it to be. If you want to have sleek, rounded corners, make sure the measurements land on an even meter count.

2. CHOOSE SUFACING

Artificial turf is a surface that works well for most sports. People often think of the green side up, but the grass doesn't have to be green, in fact. If you want other colors for the playing surface, we can accommodate that as well. The lines on the field are then marked according to your preferences. Other surfaces than artificial turf can also be designed.

3. CHOOSE HEIGHT ON PANELS

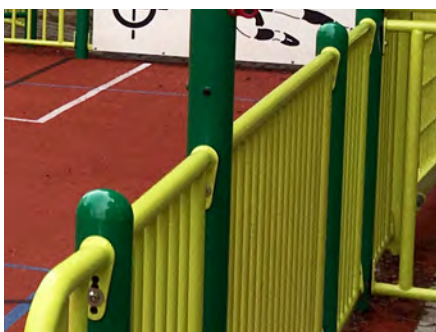

To simplify design and construction, the arenas are built with 1-meter-high panels. They can be combined to 1, 2, 3, or 4 meters in height, and you can choose between options with grills, nets, or solid panels. The low grill panels are standard, and for hockey rinks, they can be replaced with full panels. Different parts of the arena can have varying heights to fit the area's conditions.

4. SAFE & SECURE

All gates are designed for easy passage. Behind the goals, there are exits that allow for a quick ball retrieval while providing an additional entrance and exit. It's also possible to add vehicle gates for emergency or maintenance vehicles.

5. FIND THE GOAL

Jump shots, slap shots, or wrist shots... scoring is equally wonderful no matter what. Different ball sports require different designs of goal sections, and we have several options to choose from.

6. RECHARGE AND UNWIND

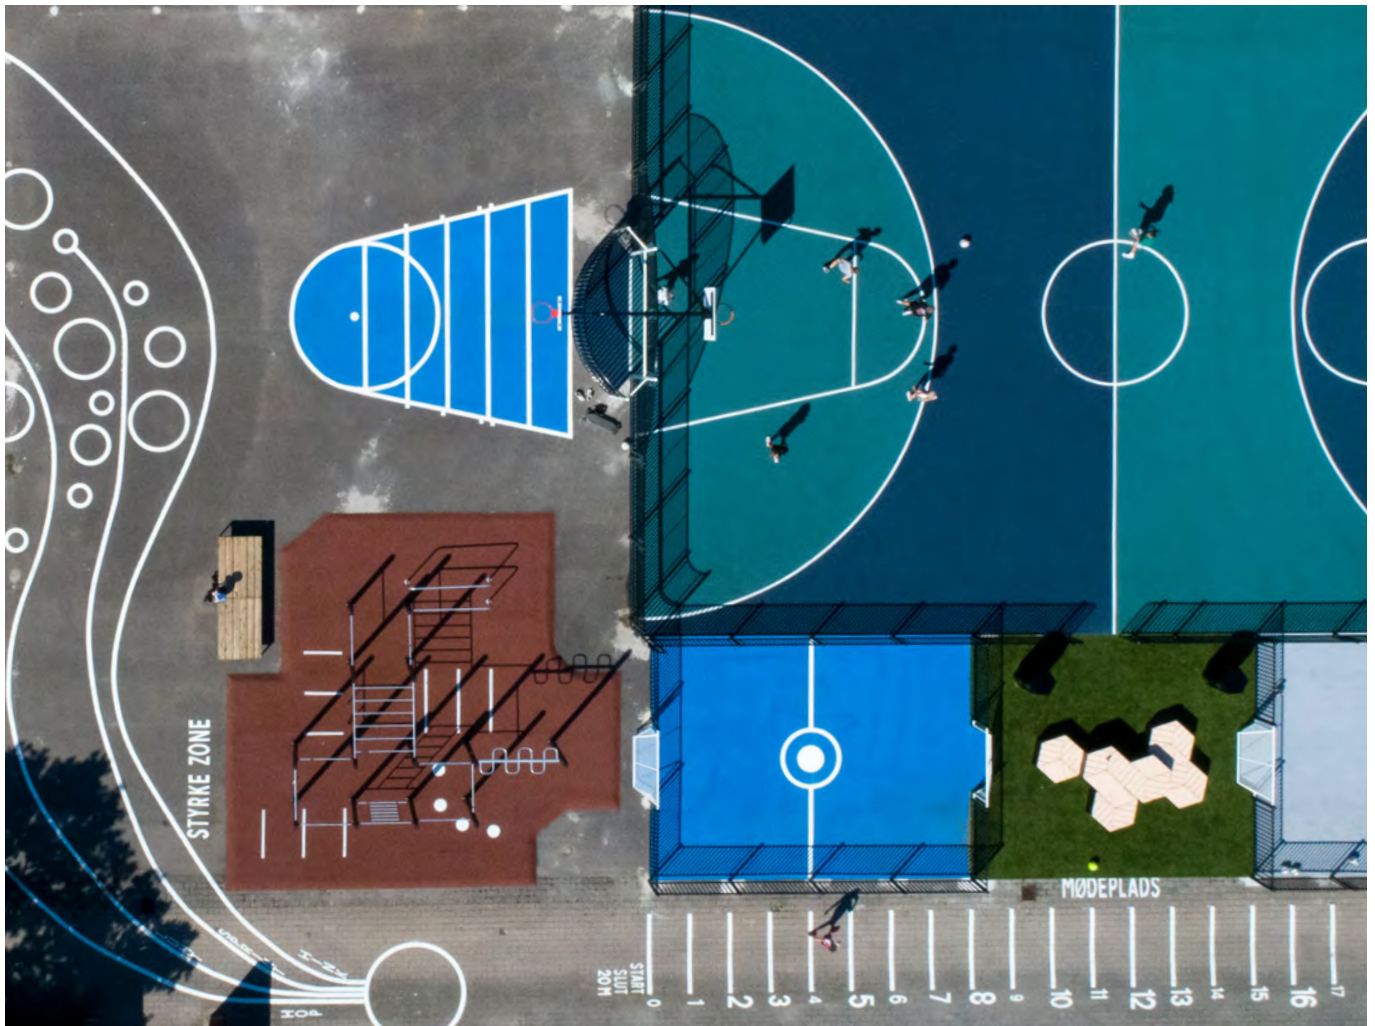

Gathering spots for halftime tactical talks, protection from the sun or rain, or the best viewing spots for loyal fans. Choose from a wide range of well designed resting places that complement the arenas. These can, of course, also be used in other environments where seating is needed.

7. ADD ON

Practice panels and mini-goals can be added to all courts. Place them strategically so that smaller groups can train in different areas of the system. Reversed basketball boards and baskets can be placed on the back of the goal sections, allowing multiple games and practices to take place simultaneously.

8. CHOOSE COLOR

Let your arena blend into nature in a harmonious and tranquil way. Or make it a splash of color in the neighborhood, standing out from the surroundings. Perhaps there are club colors to incorporate. Anything is possible thanks to many lovely color options.

Encounters on a high level.

Our mission is to create natural meeting places in everyday life. Places that are for everyone and where it's easy and comfortable to enjoy outdoor life.

Sustainability is important for both the environment and the wallet. That's why we choose materials that withstand the natural impact over a long time.

At HAGS, we enjoy finding solutions where form and function meet. We have collaborated with several Scandinavian designers over the years. Together, we have created many timeless favorites.

Our constantly evolving Rosenlund series, features a sleek Scandinavian design with straight lines, making them easy and practical to combine. The wooden parts come from dense Swedish pine - one of the best choices for park furniture when durability against nature's influence over a long time is desired. Legs and armrests are available in several colorful options or a galvanized variant for a more discreet impression.

Trellis. A stylish support for your plants that also adds some height to the combination. This allows it to be used as a divider as well.

Wooden seat. Transform the flower box into an inviting bench by adding a wooden seat. Available in various shapes and sizes.

Wooden frame. Frames the flower box in a stylish way.

Extension module. A collar that adjusts the height of your flower boxes or seating.

**DESIGN**

Design can take many forms of expression. While commonly associated with visual aesthetics—shapes, lines, materials, and combinations—our perspective on design extends beyond mere appearance. Here and on the subsequent page, we've compiled furniture/series that have been enhanced through collaboration with renowned designers.

CLEAN & TIDY

Everyday heroes.

We have public places that are truly worth appreciating. HAGS has products that may not always be the most visible but certainly contribute to making the environment more pleasant. For example, **grills** large enough for everyone to barbecue simultaneously. stylish **planters** that blend into the surroundings so that it almost looks like the pavement is in bloom.

In places where people gather, litter also accumulates. Therefore, it must be easy to keep it clean, preferably in a stylish manner. We have **litter bins** that do the job in all environments.

BICYCLE STORAGE

Practical Parking.

At HAGS, we are passionate about inspiring more movement and activity in everyday life. One way for us to contribute is to do what we can to make it easier for those who choose to cycle over driving. When you know that there is a safe, good - and affordable - place to park your bike, the choice becomes a bit easier.

Choose from spacious bike shelters and flexible bike racks in several practical designs. Either freestanding or securely anchored in the ground.
