Our Company holds the right to improve the appearance, dimension and technology of the products without prior notice.

TSO AN

TSO AN ENTERPRISE CO.,LTD.

專業始於專注

Profession Begins With Focus

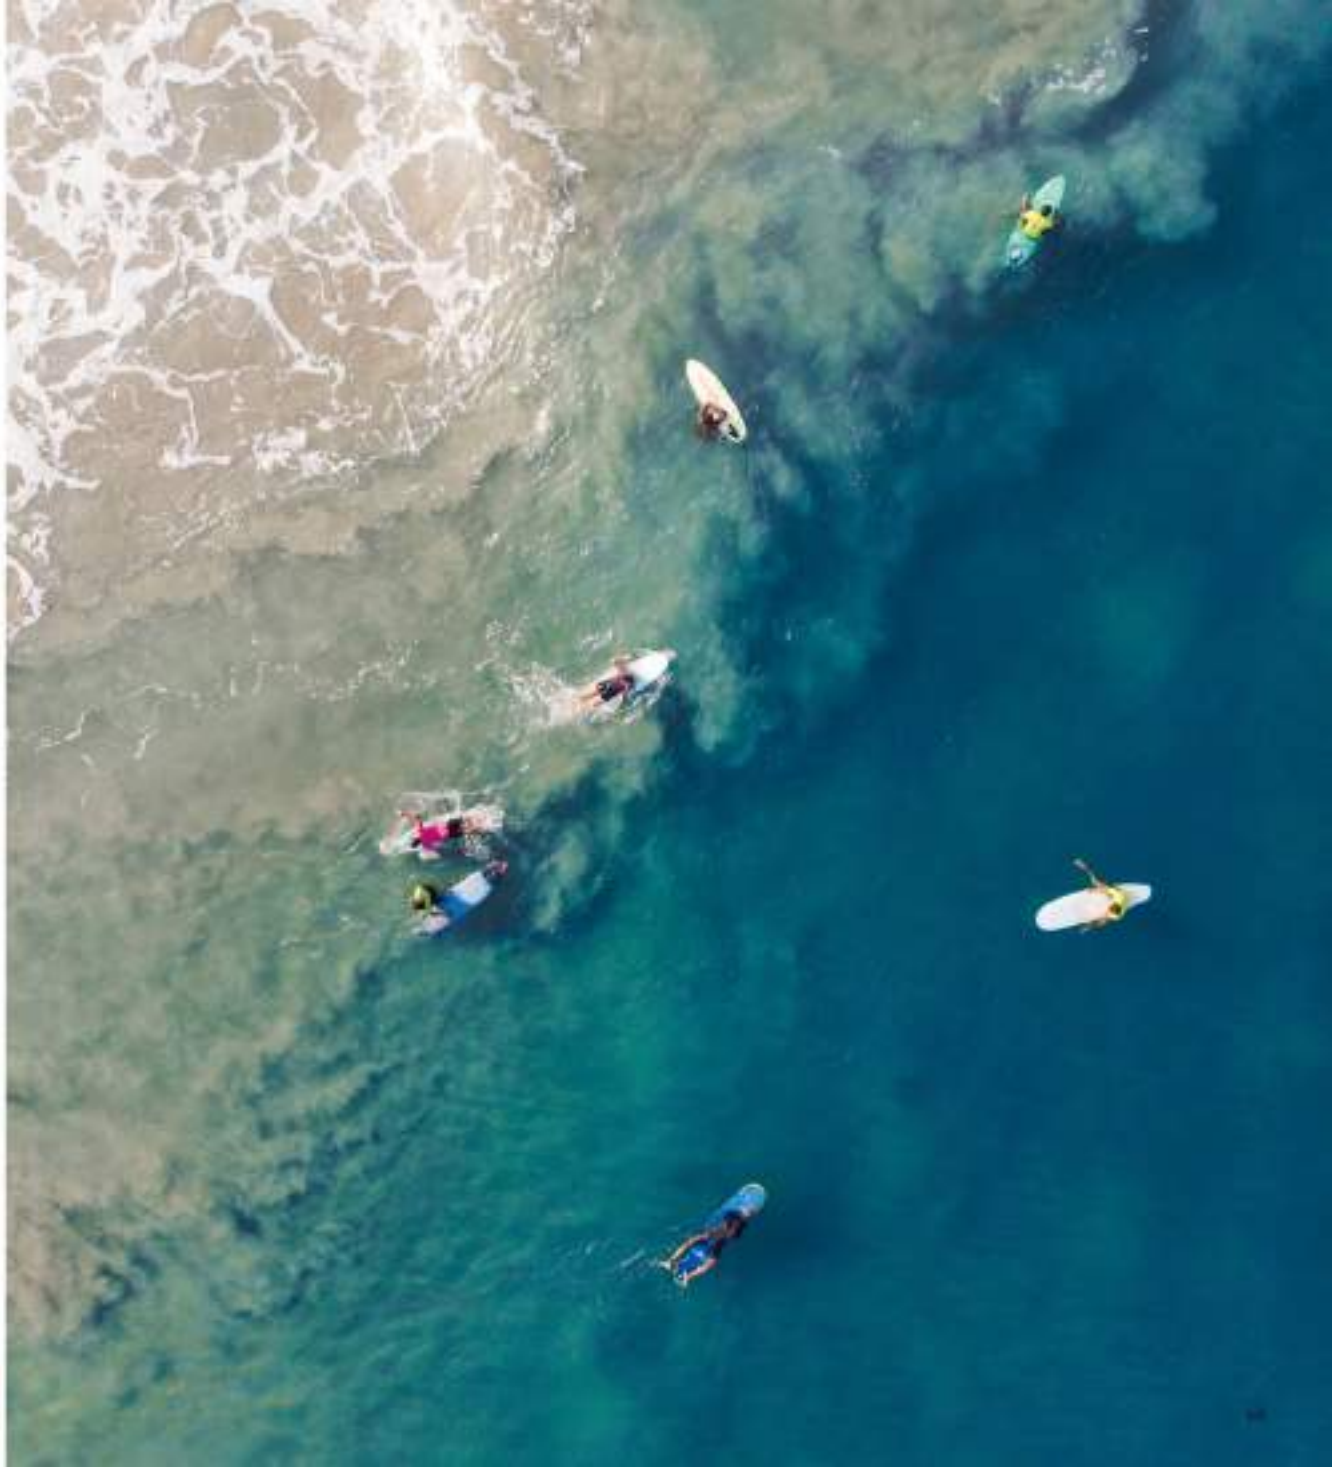
Pressure Bathroom
New Responsibility for Appearance

Take every detail seriously with care

用心对真的待每一处细节

不流於形式，設計應該是兼容藝術與科技結合至人性與科技的思考，推動或現代，形式或功能，機械或手藝，都僅是一種表達的渠道，這不是設計的本質，設計是最直接，最有價值的去做未做不可有一個，為消費者給最便捷創造最大的方便性與舒適感。

Design should not be limited to form, it should be a combination of popularization and art, and it is a reflection of human nature and science. Traditional or modern, Form or function, machinery or craftsmanship, is just a way of expression, which is not the essence of design. Design is the most real and valuable meaning, and there is always only one, creating the greatest convenience and comfort for consumers' ultimate use.



COMPANY PROFILE

Adhering to the core of the Nordic design ideal "people oriented", every detail is considered in the design aesthetic, creating a direct psychological resonance and union. It creates the greatest convenience and comfort for customers' end-use.

Selective material, perfect quality/finish, quality and technology have a crucial impact on design. To this end, I have done hundreds of times for the low, meticulous material use and mechanical properties analysing. Each production process had been tested manufactured, each component has been of more than 100 times quality control, each production line is closely monitored. Accordingly, select high-quality natural materials and develop innovative plan to leading technology , and apply them to to every products.

Each detail's design displays the incline human nature concern idea. One-line lobby chair, the craft has guaranteed the product ultimate completeness. The nanometer causes the chic from the closer glaze to be extremely difficult to absorb, very easy clean ; Static sound parachute approach principle reduction noise production; The dismountable tap causes the chair to work harmlessly. The core substrate has the ceramic sense of quality surface, degree of hardness is high, fire-durable, is not easy to scratch , after abandoning in the nature may degrade the fiber naturally, will not cause the environmental pollution.

Perfect details, overrated beauty, exact product reflects the high degree of concern of human nature.

From the appearance to function, on the surface to details..... from any angle, you could feel the unique charm of the Nordic design. It not only to provide sanitary products, produce not only the color or materials, but a carefully planned system of values.

Good Design Stands Out

Sterilization of Water by Electrolysis

Electrolysis disinfection technology, high efficiency, safety and environmental protection to protect your health.

Instant Heat for Long Lasting Supply

Instant heating, constant temperature water cleaning.

Automatic flip

Intelligently sense the human body approach, automatically open the lid, release your hands, clean and convenient.

LED display

All numerical values are displayed on one screen, and are clearly visible even when used at night.

Blackout flushing

Built in backup battery, can also be automatic flushing during power outage.

Bubble Shield

Rich foam isolation layer, effectively preventing splashing, sticking, odor and bacteria.

Seat ring heating

Safe temperature control to prevent burns, dispels the cold in winter.

Spray rod sterilization

Close the lid and automatically turn on the UV lamp for enclosed sterilization.

Power configuration

Weak or strong electrolysis according to user's need.

Air Pump for Comfortable Massage

Using air pump pressurization technology, the water is more full and powerful.

no water pressure limit

Built in concealed water tank, independent water supply components.

Feet feel flushing

The foot sensing device is sensitive and responsive, with just a gentle lift of the foot.

面盆尺寸:530*440*180mm
脚柱尺寸:330*270*360mm

Product Name: Basin+Short column base
Basin size: 530*440*180mm
Foot pillar size: 330*270*360mm

Y-7075

产品名称:挂式小便斗
尺寸:350*380*760mm
颜色:白色
排水方式:墙排/地排
感应式

Product Name: Hanging urinal
Size:350*380*760mm
Color:White
Drainage method:
wall drainage/floor drainage
Finger pressure type

Convenient

超薄小便斗结构设计充分考虑了人体工程学，
便于如何简单合理的将连接排水端与墙面连接
成为可。

The design of this ultra-fully considers ergonomics,
and the materials, height and reasonable routing
make it a way to connect the wall and the drain.

Y-7075-1

产品名称:挂式小便斗
尺寸:350*380*760mm
颜色:白色
排水方式:墙排/地排
外置式感应器(采用电池供电)

Product Name: Hanging urinal
Size:350*380*760mm
Color:White
Drainage method:
wall drainage/floor drainage
Exposed sensor
(powered by dry battery)

Feel

Y-7079

Product Name:Vertical Urinal
Size:390*425*930mm
Color:White
Drainage method:ground drainage
Built-in sensor (powered by dry battery)

Ultimate beauty

浴室销售中的细微差别决定许多设备。这款浴室镜子将完美融入了整体浴室设计，提供了空间感和设备的主题。每一细微的都经过核心编辑，设计方每项要素都精心呈现出细致的美感。

The curve of the bathroom can also shine as brilliantly. This custom-made bathroom cabinet not only perfectly integrates into the overall bathroom design, but also gives the space more flexibility and vitality. Every detail has been carefully crafted, allowing you to feel the ultimate beauty from every angle.
